

How to do The Houndstooth Project

Register: www.thehoundstoothproject.com

Login: Check your registration is working

Practice: Download the **How to do the Houndstooth** leaflet on the website, or practice on the back of this leaflet & learn how to do the houndstooth motif either as a single image or as a repeat.

Make: When you have mastered doing the houndstooth, then using whatever you want and taking a personal approach start your own Houndstooth Project.

You can do **The Houndstooth Project** any way you like, with any media, it can be literal or abstract. Single motif or repeat There are no rules.

Try, drawing, 3D printing, baking, abstract, concrete, wood, ceramics, textiles, metal, plastics, plants, 3D printing, furniture, text through to digital and they can be 2D, 3D or 4D. You can do your own project, collaborate with someone or co – design.

Process: Document your experiments leading to your final outcome/s through photography or other methods

Photograph: Photograph the final outcomes, just rename them with your name, keep high resolution and save as .jpeg

Upload: When you have finished, please login, upload your work, create your own tags and your work will then be published in a **Houndstooth Project** Collection by **Studio Houndstooth**.

Copyright: You have full copyright to your work, all Studio Houndstooth ask is that by submitting your images to the site, you are happy for them to use your images for research purposes (e.g.conferences, papers, publications) and your name will always be attributed to your work.
